**Community Model Build
– Ageing in Place Sustainably –
“A How-To for Seniors”**

Weekend workshop raising the walls of a one-story post and beam strawbale home. Join the fun and get hands-on training—we'll show you everything you need to know; starting with an information filled evening technical session on Friday night. Then two days working on a real strawbale house. Led by Michael Thomas with 20 years international experience building strawbale homes.

Hot Lunch Provided!

Call now to reserve your space.
